

# Aurora Avenue North Proposed Near-Term Improvements

## Congestion Relief

### Problem:

- PM peak period congestion southbound and northbound

### Existing Conditions:

- parking allowed all day except:  
AM peak period southbound  
PM peak period northbound

### Proposed Improvements:

- restrict southbound on-street parking during the PM peak period from N 110th - N 72nd to allow for three general purpose travel lanes to benefit vehicles and transit

### Next Steps:

- City of Seattle will work with businesses to address their parking and storage needs, including shared parking with neighboring businesses

*Where appropriate, the City of Seattle will install short-term time limit signs on the east-west streets off of Aurora*
